# INTRODUCTION

THE “ONLINE NEWS PORTAL” has been developed to override the problem prevailing in the practicing manual system. This software is supported to eliminate and in some cases reduce the hardships faced by this existing system.

Moreover this system is designed for the particular need of the company to carry out operations in a smooth and effective manner.

The application is reduced as much as possible to avoid errors while entering invalid data. No formal knowledge is needed for the user to use this system . It can assist the user to concentrate on their other activity rather to concentrate on the record keeping. Thus it will help organization in better utilization of resources .
